SUMMARY

Data Science student at Thomas More University of Applied Sciences with hands-on experience in software/web development, AI/ML, data analytics, and database management. Skilled in JavaScript, TypeScript, React, Python, SQL, and C#, PowerBI. Versatile, fast-learning, and eager to tackle complex, real-world challenges.

SKILLS

Languages: C#, Python, TypeScript, JavaScript, SQL

Technologies: React, Docker, Express (NodeJS), FastAPI, GCP, AWS, Render, Vercel, Git/GitHub, Supabase, Figma, PostgreSQL, MySQL, WPF .NET, Power BI, LLDAP

EXPERIENCE

React, TypeScript, Figma, Python, LLDAP, Docker

Frontend & Cybersecurity Intern

Pickit 3D, Leuven

- **(Frontend)** Improved and took full ownership of a Camera Selector tool utilizing ThreeJS with **architectural** codebase enhancements, complete **redesign**, and performance **optimizations** to support Application Engineers & Sales acquire and support customers visually with selecting & utilizing 3D vision cameras in production.
- Noticeable **increase** in pre-sales engagement based on faster, more interactive camera selection workflows.
- **Reduced** 3D camera selection support requests via improved UX and dynamic accuracy calculations using tailored quadratic functions, linear interpolation, and base/delta methods from official documentation..
- **(Cybersecurity)** Led the migration from a shared company server to a dedicated LDAP instance. Collaborated with DevOps to ensure smooth deployment using a custom **Docker** container.
- Increased control & ownership
- Ensured secure communication with **TLS/SSL**

PROJECTS

React TS, Express.js, Figma, PostgreSQL, Supabase

Airbnb Camping

<https://l145.be/airbnb-camping>

Full-stack web app designed & developed with inspiration from Airbnb. Includes intuitive search filters, detailed UI/UX structure, various CRUD functionality, double-sided (host/user) features, payment system with Stripe and advanced robustness & cybersecurity best practices.

WPF .NET (C#), MySQL

Project Actifuse

<https://l145.be/project-actifuse/>

.NET WPF **desktop application** for generating random activities from an API and storing them in a database. User profile page features data analytics for generated activities, and history page displays past activities. Built with a clean UI and powered by BoredAPI.

JS, HTML, CSS

Anime Waiting Room

<https://l145.be/anime-waiting-room/>

Simple & Goal-oriented website to track countdowns for upcoming anime episodes. Features real-time countdowns, multi-anime support, JikanAPI integration, dynamic caching, and quick watch links.

PowerBI

F1 Data Analysis

github.com/l145dev/F1-Data-Analysis

Interactive **dashboard** with visualizations for in-depth analysis of Formula 1 data, key metrics, and trends.

React TS, NodeJS

Trump AI

<https://l145.be/trump-ai/>

React and NodeJS (ExpressJS) chatbot simulating conversations in the style of Donald Trump built with **Groq API** (llama-3.3-70b-versatile) with an interactive UI and built-in error handling.

JS - JavaScript, TS - TypeScript

EDUCATION

9/2023 - 6/2026

Bachelor's degree, Data Science, Protection & Security

Thomas More University of Applied Sciences

Maintaining **80%+** total grades and **100%** study efficiency. Coursework includes software/web development, AI/ML, data analysis, data science, database management, cybersecurity and finance.

9/2021 - 6/2023

Secondary school diploma, Marketing & Entrepreneurship

Sint-Ludgardis Antwerpen

Entrepreneurship-focused education with hands-on learning, developing problem-solving and business management skills.

LANGUAGES

English - Fluent

Dutch - Fluent
