SUMMARY

Data Science, Protection, and Security student at Thomas More University of Applied Sciences based in Antwerp, Belgium, with a strong interest in Data Analytics. Developing skills in data analytics, data science, database management, and web development using PowerBI, SQL, Python, Excel, C#, etc. Excited to apply practical experience to real-world challenges as a Data Analyst Intern.

SKILLS

Languages: SQL, Python, C#, TypeScript, JavaScript, HTML, CSS

Technologies: PowerBI, mySQL, Excel, GitHub, Visual Studio, Visual Studio Code, React, Figma, .NET WPF

PROJECTS

PowerBI	F1 Data Analysis An interactive analysis of Formula 1 (F1) data. The dashboard includes multiple visualizations and interactive tabs, designed to give a comprehensive overview of key metrics and trends in F1 racing. github.com/legelff/F1-Data-Analysis
WPF, C#, SQL	Project Actifuse A .NET WPF app that generates random activities, fetches data from an API, and stores it in a database. The user's profile page displays data analytics specific to the user's generated activities, while the history page shows past activities, which can be expanded for detailed information. https://l145.be/project-actifuse/
JS, HTML, CSS	Anime Waiting Room A website to track countdowns for upcoming anime episodes. Key feature is real-time countdowns with data fetched from JikanAPI for accurate release schedules processed and visualised in a user-friendly way. https://l145.be/anime-waiting-room/
JS, HTML, CSS	Weather Web A weather app that offers flexible location search by fetching all available options using data from a country/city search API. It processes weather data from an API and visualizes it on an interactive dashboard, with an option for fullscreen mode. https://l145.be/weather-web/

EDUCATION

9/2023 - 6/2026	Bachelor's degree, Data Science, Protection & Security Maintaining 85%+ total grades and a 100% study efficiency. Hands-on learning across data analysis, data science, database management, software development, web development, and finance. Thomas More University of Applied Sciences
9/2021 - 6/2023	Secondary school diploma, Marketing & Entrepreneurship Entrepreneurship-focused education with hands-on learning, using Excel mainly to visualise business data, developing practical skills in problem-solving, and business management. Sint-Ludgardis Antwerpen

HOBBIES & INTERESTS

Web	Web Design & Development Passionate about using data to create actionable insights and displaying them effectively on websites. Focused on integrating data analytics and visualization tools to present clear, structured, and impactful findings that enhance user experience and drive decision-making.
Cars	Cars data Fascinated by cars, specifically the evolution of the automotive industry. The rapid advancements in car technology spark my curiosity about the data aspect, such as how new technologies impact sales, and analyzing the results of safety enhancements in modern cars using real-world data.
Gaming	Videogames & Networking I enjoy playing multiplayer Minecraft to connect with people worldwide and have a good time.
Anime	Anime & Relaxation Love watching different genres of anime.
