SUMMARY

Data Science, Protection, and Security student at Thomas More University of Applied Sciences based in Antwerp, Belgium with a strong interest in Web development/design. Developing skills in web development, data science, data analytics, and database management using React, TypeScript, JavaScript, C#, Python, etc. Excited to apply practical experience to real-world challenges as a Web Development Intern.

SKILLS

Languages: HTML, CSS, TypeScript, JavaScript, C#, Python, SQL

Technologies: React, Figma, .NET WPF, GitHub, Visual Studio, Visual Studio Code, Excel, Power BI

PROJECTS

- JS, HTML, CSS

Anime Waiting Room
A responsive website to track countdowns for upcoming anime episodes. Features include real-time countdowns, multi-anime support, and integration with JikanAPI for accurate release schedules. Offers dynamic caching and quick watch links for easy access to shows.
<https://l145.be/anime-waiting-room/>
- JS, HTML, CSS

Weather Web
A weather app with flexible location search, intuitive weather data display, fullscreen mode, and an interactive dashboard. Optimized for fast data retrieval and user-friendly design.
<https://l145.be/weather-web/>
- JS, HTML, CSS

Project Actifuse (Website)
A website for a .NET WPF project, featuring a clean, 1-page design for optimal performance. Focused on intuitive UI, smooth user experience, and subtle animations with attractive color combinations.
<https://l145.be/project-actifuse/>
- React TS, Figma

Portfolio
A highly responsive and intuitive portfolio website, optimized for seamless user experience, designed and conceptualized in Figma. Focused on clean design, smooth navigation, and ensuring accessibility across all devices for easy browsing and interaction.
<https://l145.be>

JS = JavaScript, TS = TypeScript

EDUCATION

- 9/2023 - 6/2026

Bachelor's degree, Data Science, Protection & Security
Maintaining **85%*** total grades and a **100%** study efficiency. Hands-on learning across web development, data science, data analysis, database management, software development, and finance.

Thomas More University of Applied Sciences
- 9/2021 - 6/2023

Secondary school diploma, Marketing & Entrepreneurship
Entrepreneurship-focused education with hands-on learning, developing practical skills in problem-solving, and business management.

Sint-Ludgardis Antwerpen

HOBBIES & INTERESTS

- Web

Web Design & Development
Passionate about creating high-quality websites with a focus on aesthetics, structured code, clean animations, and consistent design elements.
- Cars

Cars & Design
Fascinated by cars, specifically their design and performance. Especially the Porsche 918 Spyder, which is a timeless and high performance hypercar. This inspires my pursuit of timeless, performance-driven websites.
- Gaming

Videogames & Networking
This is where my love for building things all started, focusing on clean design and optimal experience in anything I build. I also enjoy playing multiplayer Minecraft to connect with people worldwide and have a good time.
- Anime

Anime & Relaxation
Take inspiration and recharge during coding breaks by watching anime, appreciating unique art styles.
