SUMMARY

Data Science, Protection, and Security student at Thomas More University of Applied Sciences, developing a robust skill set in data analytics, data science, software/web development, and database management. Proficient in PowerBI, SQL, Python, C#, JavaScript, TypeScript, React, and related technologies. Eager to apply practical experience to real-world challenges.

SKILLS

Languages: C#, Python, TypeScript, JavaScript, SQL, NodeJS, HTML, CSS

Technologies: WPF .NET, React, Vite, Figma, Power BI, PostgreSQL, MySQL, GitHub, Visual Studio, Visual Studio Code, Excel

PROJECTS

WPF .NET (C#)	Project Actifuse .NET WPF application for generating random activities from an API and storing them in a database. User profile page features data analytics for generated activities, and history page displays past activities. Built with a clean UI and powered by BoredAPI. https://l145.be/project-actifuse/
JS, HTML, CSS	Anime Waiting Room Responsive website to track countdowns for upcoming anime episodes. Features real-time countdowns, multi-anime support, JikanAPI integration, dynamic caching, and quick watch links. https://l145.be/anime-waiting-room/
PowerBI	F1 Data Analysis Interactive dashboard with visualizations for in-depth analysis of Formula 1 data, key metrics, and trends. github.com/legelff/F1-Data-Analysis
React TS, NodeJS	Trump AI React and NodeJS (ExpressJS) chatbot simulating conversations in the style of Donald Trump built with Groq API (llama-3.3-70b-versatile) with an interactive UI and built-in error handling. https://l145.be/trump-ai/
React TS, Figma	Portfolio Highly responsive and intuitive portfolio website, designed in Figma, focusing on clean design, smooth navigation, and accessibility across devices. https://l145.be

JS = JavaScript, TS = TypeScript

EDUCATION

9/2023 - 6/2026	Bachelor's degree, Data Science, Protection & Security Maintaining 85%+ total grades and 100% study efficiency. Coursework includes data analysis, data science, database management, software/web development, and finance. Thomas More University of Applied Sciences
9/2021 - 6/2023	Secondary school diploma, Marketing & Entrepreneurship Entrepreneurship-focused education with hands-on learning, developing problem-solving and business management skills. Sint-Ludgardis Antwerpen

HOBBIES & INTERESTS

Web/Software	Web/Software Development & Design Passionate about creating high-quality applications and websites with a focus on aesthetics, structured code, clean animations, consistent design elements, and impactful data visualization.
Cars	Cars & Design Fascinated by automotive evolution, design, and performance, particularly advancements in technology and their impact on data (e.g., sales, safety). My favorite car is the Porsche 918 Spyder because of its hybrid power, advanced tech, and insane performance.
Gaming	Videogames & Networking Enjoy playing multiplayer Minecraft to connect with people worldwide.
Anime	Anime & Relaxation Turn off my brain and watch anything that looks interesting.

LANGUAGES

English - Fluent Dutch - Fluent French - Basic German - Intermediate
