SUMMARY

Solutions Engineer Intern (AI Apps) at Microsoft and Data Science graduate from Thomas More with hands-on experience turning customer problems into **Azure AI** App demos, technical validations, and solution paths. Skilled in **Azure**, **AzureML/Foundry**, **pre-sales**, AI/ML, Python, TypeScript, React, SQL, and DevOps. Fast-learning, **customer-focused**, and strong at **bridging technical depth with business impact**.

SKILLS

Solutions:Discovery, solution demos, requirements mapping, stakeholder enablement

Tech Stack:Github Copilot / CLI, Azure App & AI Platform, React, TypeScript/JavaScript, Python, SQL, NodeJS, FastAPI, AWS, GCP, Docker, Git/GitHub, Figma

EXPERIENCE

Azure, AzureML, GHCP, Python, Foundry, Bicep, MCP

Solutions Engineer Intern (AI Apps / Data)Microsoft, Zaventem

- Built reusable **Azure AI solution accelerators** across **Azure AI Search**, **Foundry**, **GitHub Copilot**, **MCP**, **realtime speech**, and **agentic AI**, translating enterprise requirements into **validated demos** and **deployable prototypes**.
- Supported **enterprise customer solutioning** across rail, manufacturing, public sector, communication and consulting scenarios by shaping **architectures**, validating **technical approaches**, and preparing **customer-ready assets**.
- Delivered **customer-facing** and **event-ready RAG**, **MCP**, **Azure App & AI platform**, and **agentic AI demos**, including a **50+ attendee** researcher event, **30+ participant** hackathon, and a **40+ attendee** frontier event on scaling **Azure Apps & AI**.
- Created internal **MCP/Copilot tooling** and reusable **field assets**, including **PG-contact discovery**, **laC demo environments**, **GitHub templates**, and **architecture guidance** to accelerate **solution delivery**.
- Produced **Azure AI architecture guidance** for **enterprise stakeholders**, assessing **GA vs preview capabilities**, **governance patterns**, **MCP/A2A usage**, and **agent implementation tradeoffs** to support **customer decision-making**.
- Coordinated with **Engineering teams** to resolve **customer issues and requests**, including **realtime API investigation**, **internal fix validation**, and **open-source solution architecture guidance**.
- Enhanced an **enterprise AI agent** with **FoundryIQ**, **Content Understanding**, **Azure AI Search**, and **realtime voice capabilities**, partnering with an **innovation hub** to translate **stakeholder feedback** into **production-oriented improvements**.

React, TypeScript, Figma, Python, LLDAP, Docker

Frontend & Cybersecurity InternPickit 3D, Leuven

- Owned and modernized** Pickit 3D's **ThreeJS Camera Selector** by redesigning the **React/TypeScript UX**, improving architecture and performance, and adding dynamic accuracy calculations from official 3D-camera documentation.
- Enabled Application Engineers & Sales to deliver faster visual customer guidance, **increasing pre-sales engagement** and **reducing camera-selection support requests**.
- Led migration from a shared company server to a **dedicated LDAP instance** with DevOps, deploying a custom **Docker** container to improve **ownership and access control** while enforcing **TLS/SSL**.

PROJECTS

GHCP, React TS, FastAPI, Azure AI, GraphRAG, Bicep

GraphRAG Demogithub.com/aryxenv/graphrag-demo

Built customer-facing Microsoft AI Tour demo comparing vanilla RAG vs GraphRAG through a React/Fluent UI interface, FastAPI SSE backend, 3D knowledge-graph explorer, and guided build pipeline powered by **Microsoft Foundry**, **Azure AI Search**, GPT-4.1, and Bicep/azd deployment.

React TS, Vite, Tailwind, FastAPI, Playwright, GHCP

Webslidesgithub.com/aryxenv/webslides

Created web-app slide deck framework from a hackathon concept for customer presentation delivery, supporting in-slide demos, interactive navigation, reusable React/Tailwind components, Copilot-assisted theming/authoring skills, GitHub Pages publishing, and local PDF/PowerPoint export via FastAPI and Playwright.

Python, Bicep, GHCP, Foundry Agents, PostgreSQL, Docker

Hosted Agent RCE Security Demogithub.com/aryxenv/techorama-rce-code-attack

Engineered secure-vs-insecure hosted-agent demo showing how prompt injection can abuse custom in-container code execution to bypass sanitized PostgreSQL access and leak fake PII through chart artifacts, then contrasted it with **Foundry Code Interpreter** sandboxing, managed identity, Bicep/azd infrastructure, and private Blob artifact delivery.

Python, FastAPI, AKS, MAF, AGT, Docker, Kubernetes

AKS Agent Governance Toolkitgithub.com/aryxenv/aks-agent-with-governance-toolkit

Deployed Microsoft Agent Framework weather agent on AKS with a FastAPI SSE wrapper, lightweight Fluent UI client, Kubernetes manifests, and an **Agent Governance Toolkit** policy sidecar enforcing deterministic tool controls for Nominatim/Open-Meteo weather lookups.

EDUCATION

9/2023 - 6/2026

Bachelor's degree, Data Science, Protection & SecurityThomas More University of Applied Sciences

Maintaining **80%+** total grades and **100%** study efficiency. Coursework includes software/web development, AI/ML, data analysis, data science, database management, cybersecurity and finance.

9/2021 - 6/2023

Secondary school diploma, Marketing & EntrepreneurshipSint-Ludgardis Antwerpen

Entrepreneurship-focused education with hands-on learning, developing problem-solving and business management skills.
